CABLE NEWS

SAN FRANCISCO.—The following given out at Liberty Loan Headquarters in this city:

Petersburg, Alaska, has been awarded an honor flag.

Tacoma, Wash., is the first city in the Twelfth district with a population of between fifty and one hundred thousand to get an honor flag.

Subscriptions for the district almost eighty million.

BERLIN.—Germans have occupied Poelcapelle and Lang-

march, northeast of Ypres. Von Armin's army occupied Passchendaele and advanced its lines near Beceleare, Gheluvelt, Capelle, Baileul and Meteren were captured by the use of strong forces. The English, supported by the French, endeavored to recapture Meteren but lost territory. On both sides of Meris British-French attacks were broken down with the heaviest losses.

LONDON.—After gaining a footing in the villages of Meteren and Wytschaete the British were forced to make a second retirement. The French troops are co-operating with the British on this front.

WITH FRENCH ARMY IN FIELD.—Every inch of German lines from south of Somme to Oise, a front of 95 miles, is being pounded by the vastest artillery concentration yet attained by the Allies. Prisoners say that cannonading in addition to preventing the digging of a single trench is inflicting the heaviest losses.

WITH AMERICAN ARMY IN FRANCE.—American troops operating on Lorraine sector have taken over control of No Man's Land. Patrolling parties are making nightly visits up to German wire entanglements without encountering resistance.

SEATTLE.—Arrivals from the National capital say that shameful charges are being wired to Washington daily by Juneau feudists born of the governorship and delegateship fighting. Not a day passes but one side or the other hurls a mess of billingsgate which is becoming most nauseating to official Washington.

WASHINGTON.—Within ten days McAdoo will issue an order clipping a million miles a month from the total mileage travelled by passenger trains west of the Mississippi.

LONDON.—Rioting attending the breaking up of an anti-conscription meeting in Belfast revolvers were used by the police who were pelted with paving stones. Fifteen thousand persons participated in the meeting which was controlled by the labor party.

MOSCOW.—Because Russian peasants in the village of Novoselki resisted an armed requisition for money by German troops and killed an officer in the resulting struggle the Germans burned the village and from machine guns placed around it they fired upon

the inhabitants including women and children who tried to escape killing many of them.

LONDON.—Sixteen ships torpedoed for the week ending Wednesday.

BUDAPEST.—Hungarian ministry resigned.

PARIS.—French troops repulsed an attempted advance of a strong German detachment near Corbeny on Aisne front.

SEATTLE.—The Curacao sailed this afternoon with fifty for Big Port Walter.

WEDNESDAY

LONDON.—German artillery is becoming more active south of Somme.

AMSTERDAM.—Baron Burian has been appointed successor to Czernin.

PARIS.—Bolo Pasha executed at Vincennes.

LONDON.—Announced this afternoon the occupation by the Germans of both Wytschaete and Spanbroekmolen.

WASHINGTON.—Charles M. Schwab was today appointed director general of all ship building for the government.

BERLIN.—Our attacks on Lys battlefield met with complete success. Wytschaete was taken by a surprise attack.

BRITISH HEADQUARTERS IN FRANCE.—German troops carried Wytschaete and the greater part of the Messines ridge. The British are still clinging to the slopes of Messines ridge and battling desperately to repel attacks of overwhelming German forces.

LONDON.—Speaking in the House of Commons this afternoon, Lloyd George referred to the unfavorable dispatches received this morning from the front. He said: "Fluctuation between hope and despondency must continue for some time yet, but I am still full of confidence. We have lost some territory, but we have lost nothing vital."

WASHINGTON.—The sabotage bill has been sent to the President for his signature.

PARIS.—The War Office announced today that throughout the night on the front between Somme and Oisne there was great activity of artillery on both sides.

LONDON.—According to an official report from the British headquarters at Saloniki today the British occupied Kumli and Ormanli.

E. S. Hewitt, Alaska manager for the Burroughs Adding Machine and L. C. Smith typewriter, has been in Wrangell during the past week. Mr. Hewitt reports business here exceptionally good in his line, having booked a number of orders for machines and office supplies.

F. MATHESON, Member of Local Board, April 15, 1918.

St. Philip's Church

April 21, 1918.
After the first Easter the Christ began to give his final commands to his apostles.

Two of these have been frequently overlooked by Bible students and these two will be the theme Sunday evening at St. Philip's church.

They are Christ's command for the apostles to exercise a power over evils in body and mind. To what extent do these commands extend, and are there latent sources of power in the Christian which can and should be used? The theme is practical. Come and help. You are invited.

S. N. Harvey yesterday launched from the old Chips Cole boat shop a fishing boat which he has just completed. Its dimensions are: length 38 feet; beam 9 feet; depth of hold 40 inches; draft 36 inches. Equipped with 20 h. p. Campbell engine.

COBB AND BATCHELLER SPEAK IN WRANGELL

The first political speaking in connection with the coming primary election to take place in Wrangell occurred Tuesday evening when J. H. Cobb and W. W. Batcheller of Juneau addressed a good audience in the Red Men's Hall.

The present Democratic administration in Alaska, with a few exceptions, recognizes Delegate Charles A. Sulzer as the leader of the party in Alaska. Within the past twelve months a breach has occurred in the ranks of the party. Governor Strong, William Maloney and others are at variance with Thos. J. Donohue and other prominent Democrats who are considered as being in harmony with Delegate Sulzer. The Democrats who are opposed to Delegate Sulzer and his adherents have undertaken to defeat him in the primary election to be held on April 30. Their candidate for the nomination for Delegate to Congress is William Maloney. At same time these anti-Sulzer Democrats are working for the nomination of the following candidates for the territorial legislature: F. B. Harrison (Senate), W. W. Batcheller, Leo G. Young, E. L. Cobb, Mrs. Grace Bishop.

It was in the interest of the ticket just named that Messrs. Cobb and Batcheller addressed a Wrangell audience.

Mr. Batcheller was the first speaker. He spoke in the interest of good government but did not go into any details. He was followed by Mr. Cobb who asserted that he too was speaking in the interest of clean politics and against "ring rule." He paid his respects to the National Committeeman, always calling him Thomas "Judas" Donohue. He attacked the record at Washington of Delegate Charles A. Sulzer. He declared that the bill which the Delegate introduced for the regulation and protection of the fisheries of Alaska [H. R. 9092] is even more iniquitous than the Alexander Bill which caused so many protests to be sent to Washington. He said that the Bill if passed as introduced, would mean the end of the independent fisherman in Alaska.

Mr. Cobb blamed Delegate Sulzer for Alaska being excepted from the provisions of the Shipping Bill admitting foreign shipping to coastwise trade. He declared that if there is any stretch of coast on the North American continent that needed the use of foreign bottoms it is Alaska, but that Alaska was excepted on a request from Mr. J. H. Bunch, manager of the Alaska Steamship Company, while Delegate Sulzer was either silent or agreed to Alaska being excepted. Mr. Cobb pointed out that as a result of Alaska being excepted from the benefits of the shipping bill tons of fish recently rotted at Juneau because it was not possible to ship them on either of the two foreign vessels that were in port at the time that the fish should have been shipped.

At the close of his address Mr. Cobb stated that it was the longest speech he ever made in his life. [He spoke about an hour and thirty minutes.] In the course of his lengthy address, during which he was given the

Notice

All members of Wrangell Moose lodge are urged to be present at the regular meeting to be held Friday night to consider an important financial transaction. There will also be installation of officers.

By order of the Dictator.

"Welcome to our city" were the words with which Wrangell people greeted Captain Baughman and General Manager Bush of the Humboldt Steamship company upon the arrival of the Humboldt in port Saturday morning. During the winter the Humboldt received a thorough overhauling in San Francisco. The people of Southeastern Alaska are very glad that the Humboldt is again on the Northern run.

Capt. Charles Binkley, the popular skipper on the Hazel B III, arrived from Seattle on the Humboldt. Capt. Binkley expects to make the first trip to Telegraph Creek early in May.

closest attention, Mr. Cobb told of the need of a political housecleaning in Alaska, and pointed out the merits of the platform upon which William Maloney and certain other Democratic candidates are seeking nomination. He also attacked Sulzer's record at length. He closed his address by declaring himself unalterably opposed to "machine" politics and the rule of the political boss.

A CHANGE IN THE BASIS OF COMPUTATION

F. Matheson, chairman of Local Board No. 8, has received from Governor Strong a copy of an order promulgated by the Provost Marshal General. The order reads as in part follows:

"The next national quota will be announced and apportioned among the several states as soon as pending legislation authorizing a change in the basis of computation is enacted by Congress. This legislation has been passed by the Senate and favorably reported by the House Military Committee. The number that will be assumed as a basis for computation will be 800,000, which is well within the authorization of clause 4 of section 1 of the Selective Service Act of a second increment of 500,000 men, increased by the recruit training units authorized by clause 5 of section 1, and by the special technical troops authorized section 2 of said Act. It cannot now be announced what the total number to be called to the colors each month will be but it may be said that no more will be called than can be properly accommodated and promptly assimilated."

"It may be said that there will be no sudden withdrawal of great numbers of men from the ranks of industry and agriculture during the coming summer but that men will be drawn in relatively small groups throughout the year in such a way as to create the least possible interference with industry and agriculture. Men in deferred classes as well as men in Class 1 will be selected in small numbers either on account of their special technical qualifications or for the purpose of sending them to schools where there will be an opportunity to acquire such qualifications."

Notice of Primary Election

To the electors of the town of Wrangell, Division No. One, Territory of Alaska:

Notice is hereby given that pursuant to Chapter 48, Session Laws of Alaska, 1917, approved May 3, 1917, a primary election will be held on Tuesday, April 30, 1918, between the hours of 8 a. m. and 7 o'clock p. m. of said day.

The common council of Wrangell, Alaska, having heretofore, by ordinance, duly designated the voting precincts of said town and the polling place in each thereof, the electors are hereby notified:

That all duly qualified voters residing within the boundaries of Voting Precinct No. One of said town of Wrangell will vote at Town Hall building, located on Church street, the same being the duly designated polling place in and for Precinct No. One, Town of Wrangell, Alaska.

Dated this 29th day of March, 1918.

(Signed)
THE COMMON COUNCIL OF THE
TOWN OF WRANGELL, ALASKA.

By J. E. Worden, Clerk.

F. Matheson, chairman of Local Board No. 8 states that the Board, acting under official instructions, is proceeding with the physical examination of registrants who have been classified in Class 1. Mr. Matheson states that any Wrangell registrant who may be at present in the jurisdiction of some other board may have his physical examination conducted by the board nearest to where he is now residing, if he so desires.

CABLE NEWS

SATURDAY

PARIS. — American and French troops fighting together repelled a German attack in Apremont forest. The Americans captured numerous prisoners.

SEATTLE.—The government has turned back to the Alaska Steamship Company all its commandeered vessels save the steamship Juneau.

WASHINGTON.—Thos. Riggs confirmed for governor of Alaska last evening.

WASHINGTON.—A German submarine of the largest type appeared at Port Monrovia, the capital of Liberia and bombarded the wireless and cable stations, the State Department is informed.

LONDON.—Haig in addressing his troops said: "Every position must be held to the last man. There must be no retirement with our backs to the wall. We believe in the justice of our cause and each one of us must fight on to the end. The safety of our homes and the freedom of mankind depend alike on the conduct of each one of us at this moment."

LONDON.—Haig announced that the French army "is moving rapidly and in great force" to the support of the British.

SAN FRANCISCO.—Following is given out at Liberty Loan headquarters this city: "Anchorage awarded flag today making with Ketchikan two Alaskan towns flying flags. The State of Oregon has been awarded an honor flag. It is the first state reported winning one. The total number of flags awarded in the Twelfth district is now 173. Wheeler, Oregon, has been given nine stars; Cloverdale, Oregon, five. California is trying to be the second state with an honor flag."

NORMAN, OKLAHOMA.—Thirty-five boys ten to fifteen years old perished in the destruction of the State hospital by fire this morning.

PARIS.—The Germans last night renewed their attacks upon French positions in Brule wood in Forest Apremont. American troops in this sector in conjunction with the French have combatted with vigor and have broken the majority of the enemy attacks.

ON THE SOMME BATTLEFIELD.—The entire village of Hangard and adjoining cemetery have been regained from the Germans.

OTTAWA.—Canadian daylight saving measure will go into effect at 2 o'clock to morrow morning.

WASHINGTON.—William C. Redfield, secretary of Commerce, left today for Seattle to attend the sessions of the American and Canadian Fisheries conference. He will go to Alaska.

LONDON.—German air raids were made upon England and Paris last night. Eleven were killed and fifty injured in the attack on Paris.

LONDON.—A dispatch from Haig reports a heavy battle in progress near Nueve Eglise and Wulverghem.

LONDON.—War office statement this afternoon says that the Germans attacking West Merville were repulsed, and that the British advanced their line slightly in the neighborhood of Festubert.

BRITISH HEADQUARTERS.—Bray Corbie road is being fiercely shelled, heralding further infantry attacks.

NEW IBERIA, LA.—Senator Broussard died of complication of diseases.

CHICAGO.—Dr. William Isaac Thomas of the faculty of the University of Chicago, and an eminent authority on sociology, and Mrs. R. M. Granger, wife of a Texan, who is serving in France under General Pershing, were arrested this afternoon by Federal authorities for maintaining unlawful relations in a hotel.

BERLIN.—"Our victorious troops," says official report from headquarters, "are progressing between Armentieres and Merville."

PARIS.—Allied troops again hold the entire village of Hangard ten miles southeast of Amiens. Between Montdidier and Noyon there have been heavy bombardments. North of Orvillers two enemy surprise attacks failed. Bombs are being bombarded continually.

LONDON.—German gunfire has scored a direct hit on Amiens Cathedral. The British are holding at all points on Flanders front. The enemy was twice driven out of positions east of Locon.

PARIS.—City of Rheims in flames. Was fired by Germans. French are attempting to limit the burning area, but are working under heavy bombardment.

WITH BRITISH ARMY IN FRANCE.—Repulsed in their effort to gain Messines and Wytschaete ridge the Germans are putting most of their strength towards widening the salient south of Armentieres in an attempt to outflank the hill positions and gain important railroad centers. A determined attack upon Billiet from the south continues. Twenty-eight divisions are engaged today in a movement against positions north and south of Armentieres.

WASHINGTON.—Senator Stone's condition worse.

CHICAGO.—Daniels in his speech last night before the Chamber of Commerce declared that the supreme need of the hour is for ships to carry millions of soldiers to Europe. He said "Ten million men will soon be ready to take up battle in Europe. Our great problem will be transporting them overseas. Whatever else others may say that country with the most powerful navy is going to win this war."

HARBIN.—American marines have been landed at Vladivostok as well as British, Japanese and French according to advices received from that place. Americans are in control of the docks while the Japanese are guarding railway and ammunition.

LONDON.—"You could have shot them down with your eyes shut" said a machine gunner describing how the Germans attacked on the Western Front, according to a correspondent to the Daily Mail. "We fired straight into them and they went down in heaps, and yet we could not stop them. It was one down and another coming on." Wounded soldiers agreed that in the recent fighting the Germans outnumbered the British at least two to one.

PARIS.—In March 1917 Emperor Charles of Austria in a letter to his brother-in-law, Prince Sixtus de Bourbon, wrote: "I beg you to convey privately and unofficially to President Poincare that I will support by every means and by exerting all my personal influence with my allies France's just claim regarding Alsace-Lorraine. Belgium should be entirely re-established in her sovereignty."

TOKYO.—A dispatch from Vladivostok says Japanese marines are guarding foreign settlements and an armed guard of 300 Japanese volunteers are policing Japanese quarters.

WITH BRITISH ARMY IN FRANCE.—Fighting bitter along the Lys near Croix du Bac where the Germans crossed by wading as they worked toward the river from both flanks. The British held their fire and allowed the enemy to assemble. Once the Germans were in river the British defenders opened a terrific fire and there was a huge pile of bodies in the waterway before some of the enemy succeeded in getting across.

WITH THE BRITISH ARMY IN FRANCE.—The battle north and south of Armentieres has settled down to a grim race to determine whether German man power is enough to make good its threat to annihilate the British army and force its capitulation. It is a cold proposition which side can kill the most men in the next few weeks and at the same time find more recruits to fill the depleted ranks.

LONDON.—Haig reports the struggle for Messines ridge and Wytschaete continuing today. For two days the Germans had been fighting desperately to reach Crest. Last night the Germans captured Merville. Heavy fighting is continuing in the neighborhood of Merville and near Birquin. On the remainder of the Northern battle front there is little change. North of Festubert the British regained ground by a counter attack between Loigne and Lawe river. The German attacks were repulsed.

BRITISH HEADQUARTERS.—German troops made a determined attack along Messines ridge and succeeded in gaining some ground but the British drove them out again by counter attacks.

LONDON.—Haig's night report says Baileul, Wulverghem, Knapvotat were points of heavy fighting between British and Germans in Flanders while German artillery displayed increased activity in a sector between Givenchy and Robecy.

BERLIN.—Evening statement says "There were engagements on Lys Wulverghem battlefield and the enemy's lines northeast of Wulverghem were taken by storm."

LONDON.—Baileul has been taken by Tuetons. The War Office reported today that since Saturday the Germans had been throwing huge forces of troops against Baileul. Attacks were concentrated along Hazebrouck railway in sector Terris and east Neuve Eglise. The Germans hoped by these thrusts to create a twin salient pocket at Baileul just as they did at Armentiers. Baileul lies six miles northwest of Armentiers, and nine miles from great highway center Hazebrouck.

LONDON.—Ten German trawlers have been sunk by gunfire in Cattegat. The Admiralty announces that their crews were saved by British ships. There were no British casualties.

AN ATLANTIC PORT.—The first German prisoners of war arrived in the United States today. They are members of the crew of submarine U-58 which was sunk by an American destroyer. The prisoners are to be interned.

WITH BRITISH ARMIES IN FRANCE.—Fresh German troops continue to arrive from Russia and Rumania, and the total on the Western front may reach 220 divisions. British fighters admit that the Allies must withstand further blows similar to those just past before the war's great crisis is over. German artillery is busy shelling Amiens by day and bombing it by night, but not heavily as Von der Narwitz probably hopes to establish headquarters there and does not wish to destroy it totally.

WITH THE BRITISH ARMY IN FRANCE.—The severest fighting continues this afternoon with the Germans trying to push westward toward Hazebrouck.

AMSTERDAM.—North of St. Mihiel Sunday night, says a Wolff bureau dispatch from Berlin, the main part of the American position to the eastward and southeastward of Maizey on the right bank of the Meuse was taken by storm and was rolled up despite the brave resistance of the defenders who suffered casualties in addition to loss of prisoners.

WITH THE BRITISH ARMY IN FRANCE.—A heavy trench mortar bombardment preceded the capture of Baileul. The attacking forces included the German Alpine Corps and eleven divisions. Three divisions followed up the German barrage between Baileul and Neuve Eglise before which the British lines were bent but not broken. The fighting began early in the night which was pitchy blackness.

WITH THE BRITISH ARMY IN FRANCE.—On the Somme battle front Von der Marwitz's artillery is speeding up showing that the German second army is bristling with guns. There is considerable shelling of villages behind the British front.

SAN FRANCISCO.—The following is given out from the Liberty Loan headquarters in this city: "Two hundred and six honor flags is the total for the district to date. Indications are favorable that the largest cities will have their approximate quotas by the end of the week. San Francisco has twenty-six million so far. The Standard Oil Company of California took a million and a half."

WHY BUY LIBERTY BONDS?

WHY do you save to build a home? It is usually cheaper to pay rent.

Why do you plan to give your children a good education? Will you get any money-dividends from that?

Why do you pay fire insurance premiums and life insurance premiums? You personally will get little if anything from that.

Why do you call the doctor quickly if the children are ailing? You don't stop to think whether you can afford it. Do you?

None of these expenditures are what we call good investments. They don't pay in any money, yet all pay the finest of dividends.

Liberty Bonds represent the home, the school, the children; they represent all the great deeds of our fathers and grandfathers; they represent Bunker Hill and Yorktown and Gettysburg; they represent the blessed freedom under which we all live and they also represent the ORDER that makes freedom blessed.

They represent the boys "over there;" they represent devastated Belgium and homeless Serbia and murdered Armenia;

They are the defense that shall keep from our shores the monster criminals who outraged the women of Belgium and Northern France and made the men slaves;

They represent the strength that shall restore Belgium and rebuild France and avenge Serbia;

They are the voice of those who are too young or too old or too weak to fight; they are the sword of the women and the cannon of the children; they are the voice of a free people calling to cruelly wronged freedom-loving men and bringing them succor.

Buy them? Of course you will buy them. You'll borrow to buy them.

You don't need to be urged. You would be ashamed to go home to your children if you did not buy them.

The rate of interest is important but not of first importance. They would pay, they would appeal to you, if they bore no interest whatever.

Add to the rate of interest the dividends they pay in self-interest, in safety, in public order, in liberty and law and you have a larger return than you receive from any other thing that you own.

They will never become "scraps of paper."
They are the best secured investment in the world.

YOU Stand Behind Them YOU Should Buy Them
